## HOW TO USE

The Bcute Classic Curve is ultra-discreet due to its size. The upward curve and angled tip are great for pinpointing the clitoris, nipples, head of the penis, and any other erogenous spot that the user desires. The uniquely shaped massager is sturdy—allowing for precision—and extremely silent—perfect for share houses. The ridged base is easy to hold onto. Great for beginners!

## MULTI-FUNCTION | TWIST CAP CONTROL

Control the multi-functions by twisting the cap to the right. The further you twist to the right, the stronger the intensity of the vibrations.

## MAINTENANCE

Made from hygienic silicone material, which is nonporous, body friendly and amazingly sensual to touch, warming quickly to match body heat while offering a silky glide. Use a good quality water based lube with the Bcute Classic and clean with soap and warm water.

**\* Don't forget!**  
Bcute Classic Curve is a great item to upsell with water based lubricants and toy cleaners!
